

Final Brief

Client Name: Imaginary Solutions Inc.

Company Overview

Imaginary Solutions Inc. is a pioneering service company that specializes in the development of fictional solutions for everyday problems. Our company focuses on providing innovative, yet entirely fictional, services to meet the needs of a diverse clientele.

Project Overview

Imaginary Solutions Inc. is seeking a modern, professional website that comprises three essential pages: a homepage, a calculation tool page, and a contact page. The website should cater to a young professional audience with a medium to high income level. It needs to be responsive across all devices, featuring a hamburger navigation bar for mobile users and incorporating a light/dark mode switch for user customization.

Page Breakdown:

Homepage:

- Clear, concise introduction to the company's innovative services.
- Eye-catching visuals that convey professionalism and creativity.
- Highlights of key services offered, focusing on their fictional nature and benefits.
- Call-to-action buttons directing users to the calculation tool and contact pages.

Calculation Tool Page:

- A user-friendly interface for the fictional calculation tool.
- Clean and intuitive design to input data and generate fictional solutions.
- Integration with the overall site theme and navigation.
- Calculator specifics:
 - Include a single input with three different buttons that each perform a distinct function on the value input:
 - Convert from Fahrenheit to Celsius (**$C = (F - 32) * 5 / 9$**)
 - Convert from Feet to Miles (**5,280 feet = 1 Mile**)
 - Convert from Inches to Centimeters (**1 inch = 2.54 centimeters**)

- Output the converted value to the page.

Contact Page:

- Include local contact information (phone number and email) displayed when clicking a modal "Get Connected" button.
- Professional layout with clear directions on how to get in touch.
- No contact form required; direct communication details only.

Design Specifications:

- **Style:** Minimalist, professional, and contemporary design.
- **Color Scheme:** Use brand colors and companion colors that work with the brand with the ability to toggle between light and dark modes.
- **Typography:** Using brand fonts.
- **Navigation:** Hamburger menu for mobile responsiveness and intuitive navigation, with a standard menu on desktop.
- **Responsive Design:** Seamless experience across all devices (desktop, tablet, mobile).
- **Target Audience:** Young professionals with medium to high income levels.
- **Brand Consistency:** Ensure consistency with Imaginary Solutions Inc.'s branding and identity.

Key Deliverables:

- Three-page website design (Homepage, Calculation Tool, Contact Page).
- Mobile-responsive layout.
- Light/dark mode switch functionality.
- All code is to be delivered via GitHub Repository.

Additional Notes

The design should reflect the company's innovative and imaginative approach while maintaining a professional and polished appearance. Visual elements should captivate and engage the target audience while ensuring ease of navigation and functionality across all pages.

Please feel free to contact us if further clarification or information is required during the design process.

* InnoCalc currently only makes three different number conversions. Keep your eye out for the updated tool soon!

Calculation Tool page

InnoCalc - Futuristic Solution Generator

Welcome to InnoCalc!

InnoCalc is an innovative tool designed to tackle everyday challenges through a creative lens. Although it specializes in a select range of conversions, it brings an imaginative touch to these essential transformations.

Functionalities:

Fahrenheit to Celsius Conversion:

Transform temperatures from Fahrenheit to Celsius effortlessly with our imaginative touch.

Feet to Miles Conversion:

Experience a futuristic twist when converting lengths from feet to miles with InnoCalc.

Inches to Centimeters Conversion:

Witness the magic as InnoCalc converts inches to centimeters with an imaginative flair.

How It Works:

Enter Your Value:

Input your value into the provided field. Let your imagination fuel this transformation!

Select Your Conversion:

Choose from the available conversion options: Fahrenheit to Celsius, Feet to Miles, or Inches to Centimeters.

Generate Your Imaginative Result:

Click your chosen calculation and watch as InnoCalc crafts an imaginative and accurate conversion for you.

Join the Imaginative Journey!

InnoCalc may have a limited range of functions, but its imaginative touch makes every transformation an adventure. Explore these essential conversions with a sprinkle of creativity and innovation.
